EDUCATION

Bachelor of Technology
University of Engineering and Management, Kolkata

06/2017 - 06/2021   *7.9 GPA*

Courses
- Electrical and Electronics Engineering

WORK EXPERIENCE

Web Developer
Freelance

01/2023 - Present   *Kolkata*
Making websites for clients to boost their business

Achievements/Tasks
- Boffocakes - Created a full fledged website for a local client owning a cakes and bakery business. Frontend is developed with Next.js, for backend and database ExpressJS and MongoDB is used. This website is built with best possible secured data flow so that fraudulence goes out of question. Paytm PG is integrated for online payment through UPI, net banking etc. Also patch update comes every 2 weeks for better UI and new features.

Software Engineer
Speedum Technologies

04/2022 - 01/2023   *Mohali, Punjab, India*
IT Healthcare company based in Canada. They provide innovative healthcare IT solutions for business.

Achievements/Tasks
- HealthVault - Worked on main aspects of this project including Login functionality, LMS (Learning Management System), DMS (Data Management System), Chat service development using Twilio , created own bot with the understanding of voice commands, tab based UI development. Alongside also worked on basic UI/UX development
- Pepper.com - Took ownership of incomplete project and now currently I am single handedly responsible for design, functionality and development. I have integrated captcha and firebase functionalities, bug fixes in multiple pages and modules, SEO friendly metadata created with SSR (Server Side Rendering). These enhanced the efficiency and functionality of the project and helped improve the user experience.
- Phill.com - Basic UI/UX development along with data fetching with REST API functionalities. Also worked on creating multiple pages solely as per client requirement.

CERTIFICATES

MERN stack development (02/2022 - Present)
Completed a comprehensive course on MERN stack development equipped with theoretical as well as hands on practical projects from PrepBytes

PERSONAL PROJECTS

Blog Website Front-End (09/2021 - 10/2021)
